Career Summary

Dedicated Full Stack Developer with a robust history in the development and deployment of web applications across diverse technologies and frameworks. My expertise spans front-end and back-end development, database architecture, and seamless deployment. I thrive on complex, innovative projects that demand a blend of creativity and sharp problem-solving abilities. Keen on collaboration, I seek opportunities to join forces with fellow developers and make impactful contributions to significant projects. Committed to continuous learning, I actively pursue new skills and insights from the tech community.

Key Skills

- Frontend
